The inspiration for this

The inspiration for the whole series of Archangelic Links and all the other links came originally from to the Jeannine Marie & Christopher Jelm, who has created the Lightarian™ Reiki Training Program, including AA Gabriel AngelLink, AA Michael AngelLink, AA Raphael AngelLink, AA Uriel AngelLink and Rose Aura AngelLink.

We also got inspiration for the Archangelic Links by Stephen Lovering, who has made AA Chamuel's Pink Sapphire, AA Gabriel's White Sapphire, AA Jophiel's Yellow Sapphire, AA Michael's Blue Sapphire, AA Raphael's Green Sapphire, AA Uriel's Star Sapphire, AA Zadkiel's Purple Sapphire and his AA Zaphrael systems. A main inspiration for this particular system is Stephens Colours of Angels.

If you want to deepen your knowledge about the systems offered by Stephen Lovering, you should go to his homepage:

www.stephenloving.com

Andy and I both have correct lineages in all of Stephen Loverings systems. My lineage in the Lightarian™ AngelLinks is energetically correct, but not recognized by the Lightarian™ Institute.

The third source of inspiration comes from Ole Gabrielsen, we have used attunements from him here and his channelling methods in our work.

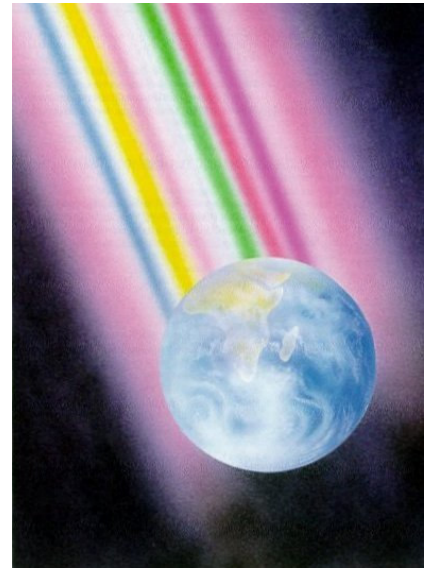

The Seven Rays

There are differing philosophies on the rays, this is one of them.

Seven great energies or streams of force demonstrate the qualities of Deity. The Wisdom Teachings speak of them as the Seven Rays and they are dominant conditioning and qualifying factors in our lives. But not only this; they are, we understand, cosmic elements, reaching us from the unknown spheres of other systems, and no part of the life of our planet is unaffected by them.

In the same way as the seven colours are parts of the spectrum and the seven notes are tones of the octave, so these Rays are differentiations or qualities of the one divine Emanation. In some of the eastern teachings they are called the seven breaths giving life to all forms, and they have been referred to in various ways in different philosophies. It is these great "Energies" that St John called symbolically "the Seven Spirits before the throne of God."

The Seven Rays, each carrying particular qualities and tendencies, are responsible for the different psychological types. Several Rays will probably influence us, but one usually predominates and gives the main colouring to our character. There is a connection here with astrology ... the astrological influences carry these same streams of energy and our alignment with particular Signs puts us more directly in touch with these qualities.

The following summary only gives a very brief idea of each Ray, but serves to indicate their different types of influence.

Archangels & Archeiai

The Archangels are the captains of all the angelic hosts, having been created as the foremost hierarchs in the angelic kingdom. They are majestic beings who personify divine attributes and are at the service of the mankind of earth. They work tirelessly to defeat evil and promote good. The Archangels have divine complements or twin flames, just as people do. Their feminine counterparts are called Archeiai. (The singular noun is Archeia, and the plural is Archeiai.) Together the Archangels and Archeiai focus the masculine and feminine, or alpha and omega, polarities of the particular color, or ray, of spiritual light on which they serve. Praying to one always invokes the assistance of the other as well.

The Archangels predate us by millions of years and are reported to have been our first teachers on the spiritual path. They are also described as divine architects, whom God uses to draft and execute the plans for his projects. They are cosmic builders and designers in the grandest sense of the word, arcing to our minds the divine blueprint for every endeavor, from the smallest to the greatest.

All of the Archangels are also healers who come as master surgeons to mend our souls and four lower bodies - etheric, mental, emotional and physical. Imagine the power of the Archangels, who for millions of years have done nothing but affirm the reality of God and expand spiritual light in their being. Then when they are in our midst, they minister to us and purify us by transmitting the immense increments of light that they have garnered. Using this boost of energy from the angels properly can help us make much greater progress in our daily life and on the spiritual path.

First Ray - Will & Power – Blue – Archangel Michael

Purpose, positivity and leadership are the outstanding qualities of this Ray. It carries great strength and driving force, in fact it is sometimes called the Destroyer. It is the Ray of the ruler and is particularly related to the field of Government. Those who initiate undertakings and are found in positions of power are especially aligned with this type of energy.

It is associated with the astrological signs of Aries, Libra, and Capricorn. This is the inner battle to create Oneness within your self. You learn self-confidence, the ability to pioneer new paths, and to develop personal power that is aligned with the Highest Source. A negative trait could be misuse of power. The highest is to pioneer a new path to Source. This ray is associated with the constellation of the Great Bear. El Morya is considered to be the Chohan of the First Ray, with Lord Michael as the archangel.

Archangel Michael is revered within the Jewish, Christian and Islamic traditions. Michael's name means, "Who is like God." In Joshua 5:13-15, he appeared as a man with a sword in his hand who identified himself as the captain of the Lord's host. In Revelation 12:7, he is named as the archangel who cast Satan out of heaven.

Michael and his divine complement, Faith, serve on the blue ray of spiritual light. They can assist in purifying and strengthening the throat Chakra and in mastering all blue-ray qualities. The blue ray provides us with spiritual and physical protection and is pivotal to the proper expression of power and leadership. It is also essential for developing faith and attuning to the divine will and one's divine plan.

Here's a quick fiat that you can give to Archangel Michael if you are ever in personal distress and need immediate assistance. It can be especially helpful in traffic mishaps and difficult situations of all kinds when no other help is in sight. Giving this call in the full fervor of your being will bring Archangel Michael instantly to your side: **Archangel Michael, Help me! Help me! Help me!**

Second Ray – Love & Wisdom – Yellow – Archangel Jophiel

This Ray embodies the building and relating qualities and is the blending and inclusive energy that leads to true understanding. Its strength is through persistence and it radiates the spirit of relationship and the attractive quality of Love. On this Ray are found the lovers of Truth and those who seek the path of Wisdom; the Teachers, Healers and Philosophers are the exponents of its magnetic energy.

It is associated with the astrological signs Gemini, Virgo, and Pisces. The second ray represents the creative energies. You learn unconditional love and help people to heal by enfolding them in the One Source of all that is. Jesus and Buddha are thought to have incarnated on this ray, and many believe it is the energy that must be used to exit the wheel of continuing incarnations. A negative manifestation would include difficulty in finding balance and excessive need for

relationship. A positive use would be to release the suffering of humanity. Lanto is considered to be the Chohan and Jophiel the archangel of this ray. It is associated with the star Sirius.

Archangel Jophiel, Archeia Christine and their bands of angels serve on the yellow ray of illumination. Jophiel means “Beauty of God.” Christine infuses matter with the light of the Christ consciousness. Jophiel and Christine aid people with wisdom, understanding, inspiration, discernment, discrimination, knowing the mind of God and all activities related to the crown Chakra.

If you need more sharpness of mind for passing exams, inspiration for projects at work or an understanding of how to resolve a conflict, you can ask Jophiel and Christine for help. They can also rescue people from ignorance or spiritual blindness that might keep them from fulfilling their souls’ highest potential.

Here’s a quick fiat to give for any situation in your life that needs more insight, clarity or illumination: **Archangel Jophiel and Christine, Blaze illumination’s flame through me!**

Third Ray - Active Intelligence – Pink – Archangel Chamuel

This energy carries an underlying impulse towards both mental and physical activity. A clear intellect and an ability to plan are its characteristics and a capacity for abstract thinking and intelligent organising are this Ray's especial gifts. Its influence works particularly through economics and industry.

This ray is associated with the signs Cancer, Libra, and Capricorn. People with a strong third ray influence are like translators. They translate abstract and philosophical concepts into terms that can be understood by all. These are the philosophers, astrologers, and communicators. They can become intellectually isolated if they become overly focused on the third ray. The positive side is that they can find the underlying principles of the Universe. Paul the Venetian is thought to be the Chohan with Chamuel as the archangel. The Third Ray is associated with the Pleiades constellation.

Archangel Chamuel and Archeia Charity serve on the pink ray of divine love. Chamuel’s name means “He who seeks God.” Chamuel characterized himself as “God’s pure love in winged manifestation.” He is the angel mentioned in Luke 22:43 who strengthened Jesus in the Garden of Gethsemane.

Chamuel and Charity are powerful emissaries of divinity and among the most fiery and intense of the archangels in their expression of love. Together they embody the great heart and love of the Father-Mother God for all creation. They help souls develop the heart Chakra and give assistance in all matters of the heart. These include compassion, better communications, a balanced love of self, the extension of oneself to others, and the creation of beauty through the arts. The healing of losses or schisms in family relationships or with friends can also take place with the help of these angels.

Aside from working with people in particular instances, Archangel Chamuel, Archeia Charity and their angels are involved in a more overarching work to reunite twin flames. You can call to these archangels to help you with discovering your divine mission with your twin flame. You can also ask them to help you gain mastery on the ray of love and to facilitate things running smoothly in your everyday life.

A powerful fiat to call them into action in situations of personal need or any division between individuals is: **Chamuel and Charity, Let divine love take dominion now!**

Fourth Ray – Beauty & Harmony – White – AA Gabriel

This is the Ray of beauty, art, and creative expression in all forms. It is the energy which, through conflict, brings order out of confusion, harmony out of discord, unity out of diversity. It finds its expression particularly in the cultural field, but it also has great influence upon humanity as a whole, and brings about the achievement through struggle by which we evolve.

The fourth ray is associated with the signs Taurus, Scorpio, and Sagittarius. They often have artistic talents (as is true of the even numbered rays) and bring beauty to the world. Fourth ray people often experience difficulties in the first half of their life. This is to teach them to find their inner source of truth and harmony. As they find their way more quickly back to center, they often become counsellors for others who recognize their sense of inner peace. Negatively, they can get lost in melodrama and mood swings. Positively, they learn to walk the razor's edge of truth and integrity in life. The Chohan is thought to be Serapis Bey with Gabriel as the archangel.

Archangel Gabriel, whose name means “God is my strength” or “Man of God,” serves on the white ray of purity. Gabriel is recognized by the three major Western religions - Judaism, Christianity and Islam. In Islam, he is the angel who delivered the Koran to Muhammad; in Christianity, he is the angel messenger who announced to Mary that she was to be the mother of Christ.

Archangel Gabriel and his twin flame, Archeia Hope, assist light-bearers in working with the light in the base-of-the-spine Chakra and in mastering qualities of the white ray—purity, order, hope, joy and discipline. The seraphim of God also serve with Gabriel and Hope. The seraphim come bearing the light of the Father-Mother God. They can literally place their presence over us and we can absorb that light and energy into our bodies

as a sponge absorbs water. When we desire to unite with divine consciousness through purity of body, mind and soul, these angels can help us raise the kundalini to achieve that goal.

Gabriel, who is often depicted with a trumpet, is the archangel of the annunciation, heralding to each soul of light the good news of the path of the ascension and their ultimate union with God. He has made that announcement to many of us, resulting in the sudden realization that we are being called home and have much work to do to balance our karma and achieve that end. Regarding working toward this goal, Gabriel has emphasized that serious spiritual seekers should determine to know, to have and to hold light, and to be the servant of light while they are becoming masters of the light.

You can give the following fiat to fill yourself with light, energize your spiritual path and help propel you to your ascension: **In the name of Gabriel and Hope, I AM a holy one of God!**

Fifth Ray - Knowledge & Science – Green – AA Raphael

This Ray is pre-eminently that of mind, critical ability and research. It is the Ray of the keen and enquiring intellect that demands great accuracy and gives much attention to detail. Within this stream are found those working in all the different branches of science.

This ray is associated with the signs Leo, Sagittarius, and Aquarius. A fifth ray person does not have to be a scientist. They are the people who use a systematic process to bring metaphysical truth into concrete reality. They help people to utilize these higher forms of energies. Negative use of the fifth ray would have the person believing only what they can see, test, and measure. Positively, they help merge the higher and lower mind. The Fifth Ray Chohan is Hilarion with Raphael as the archangel.

Archangel Raphael, whose name means “God has healed” or “God shall heal,” serves on the emerald green ray, the fifth ray. The Zohar, a Jewish mystical text, says that Raphael is charged with healing the earth as well as healing men. In Christianity, he is revered as the angel who healed the sick at the pool of Bethesda.

The divine complement of Raphael is Mary, the mother of Christ. The ascended masters have revealed that God called Mary, an archeia, to take embodiment so that she could some day be Jesus’ mother. In preparation for this mission, Mary served long ago on Atlantis and worked in the healing temples of that continent. She is sometimes called by other names such as Mother Mary, the Blessed Virgin and Queen of the Angels. Mother Mary holds the immaculate concept for each soul on earth. You can call to her to help you attune to your innate divinity. Rosaries are frequently given as a powerful way of invoking her assistance.

Archangel Raphael and Mary work with students in mastering the light of the third-eye Chakra. This Chakra and the green ray deal with wholeness, vision, truth, healing, and science, holding the immaculate concept for oneself and others, and the desire to manifest the abundant life on earth. These archangels can also provide inspiration to musicians, singers and composers for the creation of healing and inspirational music.

You can also call to Mary and Raphael for healing in times of illness, when you need the vision for a particular project, or when an increase of resources would enable you to better fulfill your mission. And you can call to them to heal your soul of present difficulties or past traumas. Following is a brief prayer for healing you can give anytime: **Raphael and Mary, I ask for [name yourself and/or another person] to be healed of [name the condition/s], in accordance with God’s holy will. I AM God’s perfection manifest in body, mind and soul - I AM God’s direction flowing to heal and keep me whole!**

Sixth Ray - Devotion & Idealism – Red – Archangel Uriel

Dedication and fanatical altruism are the main impulses of this Ray. It carries a militant one-pointedness and intensity, and further characteristics are devotion and a spirit of service. It is the Ray of the crusader and the idealist and is the great force within Religion.

The astrological signs associated with the sixth ray are Virgo, Sagittarius, and Pisces. Sixth ray people focus on a goal, allowing nothing to get in the way of achieving that goal. This ray is considered to be the ray of Christianity, and the outgoing ray energy on planet earth. Many of these people are “sinner turned saint.” They overcome lower orders of the physical to express the highest ideals. A negative use of sixth ray energy would be to become so focused on the to the ideal that they lose sight of the path they are taking. A number of years ago, charismatic

Jim Jones killed many of his followers in order to take them to the Promised Land. Positively, Martin Luther King helped people see beyond the limitations of prejudice in order to achieve higher ideals. Nada is thought to be the Chohan of this ray along with archangel Uriel.

Archangel Uriel's name means "Fire of God" or "God is my Light." He is mentioned in some Judeo-Christian books. For example, in the apocryphal text the Second Book of Esdras, Uriel is known as the archangel of salvation.

Uriel and his twin flame, Aurora, serve on the purple and gold ray, the sixth ray, and they tutor individuals in gaining mastery in the solar-plexus Chakra. This sixth ray is the ray of service and ministration, peace, brotherhood, resurrection and divine judgment of all that is evil. The purple and gold ray is flecked with ruby, which adds the intense action of divine love. It brings forth the desire to gain self-mastery in one's Christ consciousness in order to serve both God and man.

Uriel and Aurora bring vibrations of peace and brotherhood wherever they are called. Whenever there is the need to soothe disagreements or to bring about brotherhood between people, they want to help. Wielding the power of discriminating judgment carried by the light of this ray, Uriel and Aurora separate the real from the unreal and their angels bind all that is not of the light in individuals and in the earth.

To help us accomplish our goals in this life, Archangel Uriel told us to affirm that God is one with our true Self by using the fiat: Peace, be still and know that I AM God! Using this fiat can bring the light of the sixth-ray archangels into your world in a powerful way. It sets the tone for overcoming all that is less than the Christ consciousness within us. You can give it as many times as needed to feel the energy in your solar plexus Chakra and consciousness literally shift and become more peaceful: **In the name of Archangel Uriel and Aurora, Peace, be still and know that I AM God!**

Seventh Ray - Order & Ritual – Violet – Archangel Zadkiel

This is the Ray who links spirit and matter and it works through law, organisation and ritual. Those under its impulse delight in order and perfection of form. Since it is concerned with the concretising of energy, finance comes within its province, as well as all ceremonial activity.

This ray is associated with Aries, Cancer, and Capricorn. It is generally agreed upon that this is the incoming ray of the New Age on planet earth. The energies of transmutation and the Violet Flame are intrinsically tied to this ray. The seventh ray changes lower frequencies of energy into higher frequencies. For example, being loving to a waiter or waitress who is having a bad day can help improve the energy field of that person and all they serve that day. They must learn to use power, and to use it properly. They must accept responsibility to share with those whom their destiny is entwined. Negatively, they can abuse power for personal gain. Positively, they become the master metaphysician helping planet earth to evolve into its highest frequency of vibration. Although there have been some differing opinions in the past several years, most people say that Saint Germaine is the Chohan and Zadkiel is the archangel of the seventh ray.

Archangel Zadkiel and his feminine complement, Holy Amethyst, embody the spirit of the violet ray, the seventh ray, and the age of Aquarius. Zadkiel's name means "Righteousness of God." He and Holy Amethyst assist humanity in mastering the seat-of-the-soul Chakra.

These archangels bring the flame of freedom, joy, forgiveness, alchemy, justice, transmutation and liberation of the soul. We can enhance these qualities of the violet ray in our lives by invoking the violet flame through the science of the spoken Word.

Using the violet flame can erase past memories, bring forgiveness and increase the spirit of joy within us. And each time we call on Zadkiel and Amethyst, who embody the violet flame, we bring change to the earth and ourselves, come closer to merging with our Christ Self and help prepare the world for the incoming golden age. According to Archangel Zadkiel, the success of the age of Aquarius is absolutely dependent upon our invoking the violet flame and a single call to the violet flame can be worth a million prayers.

You can call on Zadkiel and Amethyst to help purify you from past karma and to bring new vitality to your life. While giving the following affirmations, visualize the violet flame wiping away obstacles to your soul's liberation: **In the name of Archangel Zadkiel and Holy Amethyst, I AM the violet flame in action in me now! I AM the blessing and buoyancy of the violet flame! I AM freedom from limitation!**

More work to do

This gives the general picture of the Rays, but they are many-sided and too complex to be fully portrayed in a short summary. It must be added, however, that their energies can work out as detrimental tendencies as well as valuable qualities. For example, First Ray energy may activate the strong, courageous leader, but may equally well stimulate adversely the ambitious, arrogant dictator. Upon our response to these great forces and our handling of them depends how they manifest.

There are many interesting relationships and correspondences which can be followed up in connection with the Seven Rays. Their influence is felt in all kingdoms of nature and recognition of their conditioning energies gives us new insight into our fellow humans as well as ourselves. Study of them will be at the roots of New Age psychology, for understanding of the Rays that influence us individually will reveal both the bases of our problems and our lines of potentiality, and will help us to meet the ancient Greek, yet ever current, demand—"Know thyself."
