## Sophia.....

Sophia comes to us from the timeless recesses of the Angelic Seed within the Wisdom Mind....Sophia's wisdom is that of Mother....Nurturer....Lifegiver....She says to let you know it is her voice that reminds you of love...giving and receiving....in all it's aspects....It is her gentle reminders that give you the rememberings of your soul qualities....loving tenderness to all.... within all kingdoms....Calm and tranquillity in the face of adversity....strength that only the Divine Feminine may enfil and enfold within you.....

Sophia is at the helm of the Angelic group wisdom that surrounds you....She is a Creation Angel....in this aspect she has been witness to many a galaxy being born and created....time and space are concepts we are using in this dimension and mean nothing to her...Within her vast consciousness is the Divine no time....We go beyond time and space to commune and meet with Sophia.....This happens when we create....also in sleep...during theta and delta brainwave states.....

Sophia communicates to us in innumerable ways....We are very conscious of colour...this is one of her favourite ways to communicate.....The magnificent colours depicting Sophia in the painting can be viewed as following.....

1. Gold...pure celestial or divine consciousness and bliss
2. White...the summation of all colours...purity and cosmic consciousness ...divine healing
3. Indigo...6<sup>th</sup> chakra...indicative of spiritual eye...all seeing...
4. Pink...heart chakra...unconditional love....gentle or tender being
5. Red Violet...also associated with third eye and properties....with a passionate vibration of spiritual context....being
6. Amethyst....again relating to high spiritual nature
7. Turquoise....indicative of thymus chakra...new coming information and Age....

Each colour representative of Angelic Group....

All pearlised colours are used to inspire etheric and universal properties to paintings....Glitters depict angelic realms...depending on colours...gold in the case of Sophia....Metallic paints also used to portray auric colours and provide etheric effects.....

All colour and design work is given to me in the form of claircognisance....I am then told step by step what to do and which colours to use...I have a picture in my minds eye...Oftentimes I will revisit work I have completed and see coded information not previously consciously noted...This is the way it is for me...I do not necessarily grasp All at once...It is an ever evolving process for us all.....

The 4 stars in the painting represent so many things....4 different star systems representatives of 4 different consciousness streams..Body/ mind/ emotions and spirit...the number 4 being representative of the Earth....the 4 Great Archangelic forces...the 4 great winds....the 4 elements....Sophia represents the 5th element...the Quintessence...the Spiritual centre of being.....Her seed like body is very “pregnant” with all that is....an idea.....a beginning...an ending...all encompassing and yet of no substance and form.....She contemplates our beginnings of self actualization...and the slight smile upon her lips is indicative of not only knowledge of past present and future...but of seeing and divining new beginnings without end...a living through joy....love and respect of self...all kingdoms and the essence of planetary Gaias and Logos.....vastness, immense and uncalculable....on and on.....Sophia sees a place in all of us that is ignited with the Spirit of a Father that is all encompassing and omnipresent....and she gives Great Thanks for us all.....

On a Personal Note....Sophia wishes to foretell of a number of great achievements and blessings being devised and bestowed upon you...

At a level way beyond our comprehension she wished to tell you that your prayers have been heard and answered.....

Everyday in everyway you will be gaining insight and health back.... You will tread the enlightening path for all your incarnations... Your work both on this plane and in the work of the Holy Spirit on many other dimensions has been well noted... To you Let it be Known "WE see you are very pure of heart... do not judge yourself so harshly... Be at peace and know all time spent in contemplation with Spirit is time well spent... You have achieved much... but this is little compared to what you may achieve if you desire, remember to just "be" there is no speed needed... work at a pace that feels comfortable to you.... All you do and achieve in the work of Spirit is seen and acknowledged... Look to nature and the natural world to see just how appreciated you are "..... Sophia speaks of herself in the terms of "we".... she says We have been alongside the spark of divinity that has manifested itself on the earth plane as Humanity at this time of great change... we have been with you always... Draw upon us.... we emit light in a frequency that is extremely beneficial to you on all levels... at this point in your evolution.... use our frequency to heal you at a Mind/Body/Emotional and Spiritual level... We love and embrace thee at a deep core level.....

The dots in the paintings are my way of bringing in the consciousness of God/ Spirit/All that is.... I use colour and layering techniques to emphasise different aspects.... As a Reiki Master and Hands on Healer all work is energised.... created in sacred space... and created with the highest good intended for the person I am painting for (highest good of all... the Law of One...) and remember Sophia is a light that shines through your eyes..... She is a light of Divine Intelligence..... She is the Light of the eyes within our Soul.....

Sophia is in the wind... in the scent of a flower... in the ripples of the water..... in your minds eye.... she is at one with you and the Creator..... Co create with Sophia... see yourself at your highest aspect.... bring this into reality in the here and now.....

The silver chords coming out from Sophia's wings and going to the stars remind us of our psychic links with intelligences beyond our usual beta brainwave consciousness.... We are capable of communicating through our angels and to our angels... We only have to ask.....

Sophia reassures you that you are safe and held in high regard within her dimensions... Should you need to ask anything of her... you may wish to gaze upon her image a while... then go out in to nature.... she will be there to greet you... and answers will come to you in a myriad of ways..... Sophia reminds us of all the wealth of knowledge we have within us..... above and below us..... within and without..... HO!

Namaste..... El\*
