

Argyroxiphium sandwicense...(silver sword)

Silver sword empowerment

This very significant plant species anchors spiritual wisdom onto earth...assists in the balance of the Divine Masculine and Divine Feminine Energies within the self....and the cosmos....and enhances our use of the re-integrated energies of the VIOLET/SILVER/GOLD FLAMES of transmutation and cleansing....for ALL KINGDOMS...

Color(FLOWER): *Reddish Purple*

Archetype: *Celestial Light-Bearer. Silver Sword, a most unusual, other-worldly plant species, may have been brought to Earth from some other dimension for our spiritual edification. Rare plants, celestial music, exquisite art, and intuitive senses—are but a few of the divine gifts humans have been given to uplift the soul and advance the evolutionary process.*

*One of the most fascinating members of the sunflower family (Asteraceae) is the infamous silver sword (**Argyroxiphium sandwicense ssp. macrocephalum**) that grows in the cinders of Haleakala Crater on the island of Maui. The rosettes of sword-shaped leaves are covered with silvery hairs that reflect light and heat and provide insulation against the intense solar radiation and extreme aridity of this 10,000 foot (3,000 m) volcanic mountain.*

In addition, the leaves contain air spaces filled with a gelatinous substance that absorbs and stores large quantities of water during the intervals between rains.

*This stored water is especially important when the plant blooms, because the fast-growing flower stalk requires a lot of moisture as it develops into a massive inflorescence. Another subspecies of silver sword (*A. sandwicense* ssp. *sandwicense*) grows on the upper slopes of Mauna Kea on the island of Hawaii.*

Signature: *Exclusive to Hawaii, and having a very delicate root system, it blooms in a rotund cluster of silvery, curved, spiky leaves. It remains in this configuration for over a decade, after which, a spectacular stalk of reddish-purplish florets emerge from its core, growing to a height of 3-6 feet. This most unusual plant is being carefully monitored in order to prevent extinction.*

Several additional species that are closely-related to the silver sword also grow on Haleakala, including the green sword (*Argyroxiphium virescens*) of fog-shrouded, boggy meadows and a low-growing, shrubby species (*Dubautia menziesii*) of windswept, alpine slopes.

*Celestial Dreaming Songs
Brought to us on the waves
Ancient Mysteries join present and future
Beyond space and time
Ringing the tones of One..Awaken all ye bidden
As the universe sings.*

The silversword is a descendant of the North American tarweed. It is an endangered species, endemic to the areas it grows in. The silversword found on Haleakala on Maui differs from the one on Mauna Kea on Hawai'i island, and from the one on Mauna Loa, also on Hawai'i island. Each variety adapted to its environment, developing characteristics that allows it to stand alone from the others. The plant on Maui, for instance blooms from June to September and the flowers are generally purple to a deep wine color, while the Mauna Loa variety has yellow flowers.

Healing Properties

very rare and special plant essences and vibrations...

Silver Sword is very rare, with a high vibratory frequency.

It releases encoded information stored in the miasmas (or cellular memory bank), completely opening one's energy centers and aligning one's body with the next seven chakras above the crown.

It cuts through the illusion of ordinary reality and unveils the curtain that separates us from our highest aspirations and healing.

When the individual is ready to be 'fully seen' and ready for their truest soul work, Silversword is the best flower to take as a remedy.

Healing Properties: It cuts through the illusion of ordinary reality. It must never be over-used, and is best taken alone if used in essence form.

Growing at an elevation of 7-10,000 feet on the slopes of Haleakala Crater on the island of Maui, the Silversword grows to six feet or more, blossoming magenta sun-flowers out of silver moon-like basal leaves. A Royalty of the flower world, Silversword raises your heart forces to sublime levels, synthesizing aspects of your solar masculine into the lunar aspects of your feminine soul forces.

Silver Gold Violet Rays grace the Silver Sword

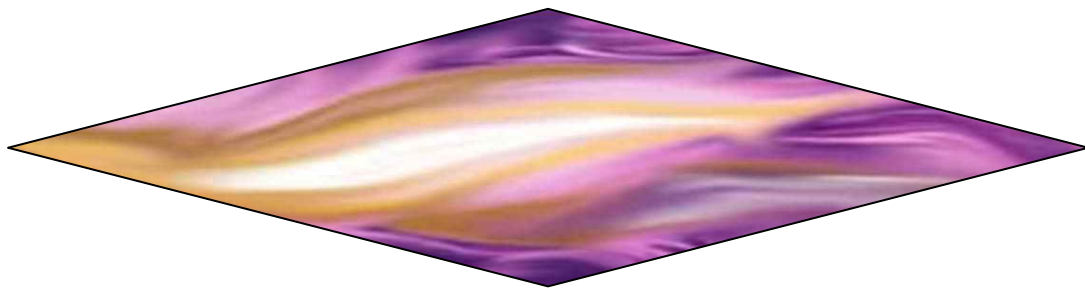

violet silver gold ray connection

The Gold and Silver Violet Flame is one of the most powerful healing and transformational tools that we have been given. It is a divine gift and blessing and each time another ray is added it becomes more refined and gracious.

About the Rays

A Ray is a force containing a purpose that divides its efforts into two measurable and perceptible powers: light and sound. Alice Bailey writes in A Treatise On The Seven Rays, A Ray is but a name for a particular force or type of energy, with the emphasis upon the quality which that force exhibits and not upon the form aspect which it creates. This is a true definition of a ray.

The silver ray is used for balancing feminine energy in a person....

Excellent protective energy, intuition, reflective energy of the sun (God's light), feminine, justice, purity. The silver ray is used for balancing feminine energy in a person, because silver embodies the feminine aspect of the Source.

When infused in the body, this ray adds additional feminine energy that brings the recipient back into balance...it transmutes all toxic substances, ie, from a body of water, plant life, food, from a human or animal body.

The ray essence oil is Overlighted by the Pleiadian Emissaries of Light, and is primarily scented with rose, caraway, geranium and clary sage essential oils.

FLAMES

The three-fold flames carry out the trinity energy of Light (masculine aspect of Source), Love (feminine aspect of Source) and Balance (androgyny, or balance between the poles).

The Violet Flame of Transmutation...

In 1987 the Earth started a twenty five year period of purification in preparation for 2012. In August of that year at the Harmonic Convergence so many light workers prayed for help for our planet that St Germain petitioned Source for the return of the Violet Flame for use by the whole of humanity.

Gold and Silver Rays supplied the Love/Light and the primal life force substance needed to maintain, nurture and expand this young universe over all these many aeons of time.

SILVER FLAME

Beingness and love are its keynotes...Producing a display of lustrous rainbow-like colors. The Love, feminine aspect of Divine Mother, it's cool flame sparkles like millions of shimmery stars. The atoms of the goddess...Also use when the feminine essence is needed in full force, or when there are issues regarding the feminine energy. Use for issues of separation, illusion, and self-doubt. Representative gemstones or elements: Galena, silver, hematite.

Gold Flame

Gold Flame ----Magical power. The Light, masculine aspect of the Godhead, it burns like melted gold. Royal, rich, fullbodied, warm. The Christ consciousness.

This flame sustains your power as you move into other dimensions. Movement and light are its keynotes. Also use when the masculine essence is needed in full force, when there are issues regarding the masculine energy, limiting of self and one's divinity. Representative gemstones or elements: Gold, pyrite.

The Gold and Silver Violet Flame

In the last year we have been offered the ultimate blessing, the merging of the fifth dimensional Gold Ray of Wisdom with the Silver Violet Flame. Wherever you focus the Gold Silver and Violet Flame, it transmutes the old, harmonizes it, then raises the situation, place or relationship to the fifth dimension and holds it there.
